RANSOHOFF INTRODUCES THE RBS MODULAR SYSTEM WASHER FOR HIGH VOLUME PARTS CLEANING APPLICATIONS

May 16, 2022 – Cincinnati, OH

Ransohoff, a division of the Cleaning Technologies Group LLC, has introduced a new modular automated cleaning system. The **RBS Modular System** is an automated immersion cleaning system that can be expanded as needed to meet your process requirements. The RBS Modular System is a dedicated inline process that includes a Wash, Rinse, Ultrasonic Wash, Ultrasonic Rinse, Heated Blow Off and a final Vacuum Drying System. This system is set up to process parts in a basket or on a fixture. The RBS Modular System can handle parts up to 1100 LBS (500kg) and can do up to 15 cycles per hour. The RBS Modular System cleans using a washing and rinsing process of agitation, spray impingement, hydraulic purging through immersion and rotation, ultrasonics, and heated blow-off drying. The "triple action" batch cleaning process was developed specifically to process a broad range of challenging parts, especially those with internal bores and passages and complex geometries, making this system capable of meeting critical cleaning expectations.

The Modular RBS System offers the features of the latest Siemens programmable controller and operator interface screen. This controls platform boosts system flexibility for automation integration, process control and data logging while offering an intuitive user interface. The RBS Modular System comes standard with the industry leading 3-2-1 warranty.

For more information about the RBS Modular System, visit <https://www.ctgclean.com/parts-washers/rbs-modular-system>

Cleaning Technologies Group, LLC is a world leader in providing innovative cleaning and waste minimization technologies to precision and industrial manufacturing markets. CTG is comprised of Ransohoff located in Cincinnati, Ohio, Blackstone~NEY Ultrasonics located in Jamestown, New York, and CTG Asia located in Suzhou, China. The Group is the premier provider of high technology, environmentally friendly parts-cleaning and waste-minimization equipment and services to the global marketplace.
